Jesse, Blake and Michael,

I wanted to clarify my below email – I am just trying to do anything and everything to be sure we have all i's dotted and t's crossed for the upcoming election(s). I do not have anything that would suggest that the former election supervisor gave improper access to any voting machines and understand that has only been alleged by others outside the county, and further that Coffee County nor SOS has any information at this time as far as I am aware that would support that such an access happened.

Thanks,

Rachel

Since it's been published that the former Election Supervisor gave access to the voting machines do they need to be recertified?

Thanks
